## Top News KEY FACTORS IMPACTING KEY OVERSEAS

US stocks closed little changed as institutional investors remained in a holding pattern as there not much to motivate significant market movements. All three major U.S. stock indexes ended the range-bound session near flat or higher. The CBOE volatility index reached its lowest level in over a year. The markets await Thursday CPI data for further guidance on inflation.

## SOME KEY FACTORS IMPACTING NZX & ASX YESTERDAY

The NZX increased marginally with SKY City Entertainment faced a money laundering probe in its Australian Adelaide operation.

The ASX 200 started the day strongly as the index rose 7315 points but remained flat for the rest of the day, as investors await further data on inflation in Chin and the US.

The NAB Business Survey shows business conditions are extremely strong with inflation expectations at a thirteen - month high, consequently the markets are expecting continued growth in business revenues and profits. Trading remains strong with good forward orders and strong employment conditions. The Bank's economists see the Australian economy entering a "new period of growth after a rapid rebound". The mining states are doing exceptionally well with economic conditions booming in the mining sector.
